

Occupational Health Services

Irrespective of your company size, every organisation can increase employee productivity and reduce staff illness via a proactive approach to occupational health.

We are SEQOHS accredited and offer a personalised approach to occupational Health Services. Our services are designed to help HR managers comply with relevant employment legislation and to assist you in screening employees throughout their working lives from 'recruitment to retirement'. We take pride in offering a comprehensive range of bespoke and personalised services in a competitive, reliable and convenient way.
